Air Force Enterprise Onboarding

Mr. George Berry
AFNIC

Aug 2018

UNCLASSIFIED

Purpose

How do I get new applications and systems onto the Air Force network?

Through Onboarding!

What is Onboarding?

- A process to ensure systems are properly prepared for transition into the Air Force Information Network (AFIN)
- AFNIC guides PMs and projects through key activities and decision points of the Fielding Process into 24 AF's hands for mission execution
- Applicable to system modifications and large projects
  - Enterprise level projects
  - Multiple Bases
  - Dependencies
  - Impact to Multiple Users
  - High Risk
  - Technically Difficult
  - Require 24 AF Resources to Implement or Operate

Importance of Onboarding

- Supports 24 AF in several ways
  - Fielding decisions based on strategic enterprise landscape
  - Risk Management
  - Project prioritization
  - Resource prioritization
  - Change management
- Provides enterprise level visibility of projects in pipeline
- Enables MAJCOM input to process
- Improves integration from design to operations
